PROFESSIONAL SUMMARY

Motivated second-year B.Tech CSE student with a strong foundation in computer science principles and a keen interest in software development.
Skilled in problem-solving and eager to contribute to impactful projects while gaining practical industry experience.

EDUCATION

ITM Skills University
B-tech CSE, kharghar
August 2023-present

SSC   Al-hamd high school
HSC Rais College

SKILLS

Technical Skills
- C++
- Python
- Appsheet
- Figma
- HTML, CSS, JS
- React JS

Soft Skills
- Team management
- Team Collaboration
- Teamwork
- Adaptability

PROJECTS

Urban Company Clone Website

Developed a full-stack web application using the MERN stack with Firebase Authentication. Implemented secure user authentication, RESTful APIs, and MongoDB database management. Built a responsive UI with React and ensured seamless backend integration with Express.js and Node.js.

RentEase

RentEase offers comprehensive features including car listings, booking, transparent pricing, user reviews, and filter-based car search for ease. Users can also hire drivers and have cars delivered, ensuring a seamless experience from sign-in to booking and logging out.

Weather App

Developed a weather application using React that fetches real-time weather data from an API. The app provides current weather conditions, temperature, and forecasts with a clean and responsive user interface.

Government Complaint Box Application

Developed a complaint management app using the AppSheet no-code platform. Enabled users to submit and track complaints efficiently with features like form submissions, automated updates, and a user-friendly interface.
